Old Time. Prentice Mulford.

The "district school" of the pe riod was unwholesomely crowded in winter. It commenced in the Henry B. Payne, of Cleveland, morning with a long prayer and generally ended at night with a succession of cowhidings. Most a waste of space, but a cause of of the teachers were from Connecticut and generally dyspep ic or consumptive. A "box-stove", or off, the perches when they are burned wood, heated the apartment, all aglow at one moment and cold the next. Water for drinking was brought in at interdrunk out of a tin dipper. The which excites our wen ler and praise unpainted desks were cut, hacked are instances of the resistless force and ink-stained from the arduous of perseverance. efforts of generations of schoolboys. Dried "spit balls" were compounded of ink and unwashed juveniles. There was no sys- that terrible cough. Shiloh's cure if the remedy for you.
